Professional Experience

AI & QA Consultant, Talan Tunisia Consulting 07/2026 – Present

Project: **Upcoop – Payment solutions (meal, gift & culture vouchers)** - 10/2026 – Present

- Ensure functional QA of web and mobile applications: user-story coverage, test design and execution.
- Identify and propose AI use cases to accelerate the team's QA activities.
- Build PoCs of AI testing agents generating test cases and scripts from user stories.
- Prototype mobile test automation with **Appium** and **UiPath**.

Project: **Redion – Europ Assistance (insurance web platform)** - 07/2026 – 10/2026

- Evaluated the **BMad Method TEA** agent framework across the full test lifecycle: test design, ATDD, automation and review.
- Automated E2E scenarios with **Playwright**, **TypeScript** and **Cucumber** (BDD) in a **Page Object Model**, using MCP Playwright.
- Industrialized test execution with **Azure DevOps** CI/CD pipelines, Dockerized runs and **Allure** reporting.
- Designed a stack-agnostic agentic regression-testing workflow extending the agent's capabilities.

AI Engineering Intern (Final-Year Project), Talan Tunisia Consulting 02/2026 – 06/2026

- Built an AI platform turning natural-language specifications into executable Playwright tests, **cutting test creation time by 20.8×**.
- Designed the LLM agent pipeline from spec analysis to test generation and execution, reaching a **90% pass rate** on functional scenarios.
- Ensured traceability with execution reports and LLM observability via **Langfuse**.

AI & NLP Intern, Hydatis 06/2025 – 08/2025

- Built an LLM-based HR chatbot with a RAG pipeline (LangChain) to improve answer relevance.
- Integrated user authentication and conversational memory for personalized interactions.

Education

Engineering Degree in Data Science, Faculty of Sciences of Tunis – University of Tunis El Manar 2023 – 2026

Integrated Preparatory Program, Faculty of Sciences of Tunis – University of Tunis El Manar 2021 – 2023

Baccalaureate in Experimental Sciences 2021

Graduated with Honors (*Very Good*)

Skills

Testing & QA
Functional Testing · Test Design · Web & Mobile Testing · E2E · Regression · BDD (Cucumber) · Page Object Model

Generative AI & Agents
LLMs · AI Agents · MCP · RAG · LangChain · BMad Method · Claude Code · Langfuse

Languages & Data
TypeScript · Python · JavaScript · Java · SQL · PostgreSQL · MongoDB

Test Automation
Playwright · Appium · UiPath · Selenium · Allure

Tools & DevOps
Azure DevOps · Jira · Jenkins · GitHub Actions · GitLab CI · Docker · Git

Certifications

- OCI 2025 Data Science Professional
- CDOSS Big Data Machine Learning with Apache Spark
- OCI 2025 Generative AI Professional

Languages

- Arabic
- English
- French

Leadership & Volunteering

Information Management Lead, AIESEC Tunisia 02/2024 – 07/2025

- Supported strategic decisions by managing digital tools, generating insights, and ensuring data confidentiality.
- Volunteered in Vietnam to teach AI and LLM concepts, leading cross-cultural workshops for students of different ages.
